Nov. 6-7, 2018 NJ & NYC

Designed Exclusively for Cross-Functional Executive Leaders in Healthcare

Program Highlights & Learning Objectives:

- Recommended Attendees: CNO, CMO, CMIO, COO, CPHO, DSRIP, CFO, CTO, CIO, SVP/ED/VP of Data, Analytics, Quality, Patient Safety and Experience, Population Health & Process Improvement, IT & Infrastructure, Reimbursements, Chief Strategy Officer and similar**
- Hear from practicing physicians and our keynote speaker about creating standardized and scalable care delivery models
- Gain valuable insights from valuable real-world case studies brought to you by Northwell Health, Hartford Healthcare and other major healthcare organizations. Topics include Predictive Analytics, Big Data, Visual Analytics, Accountable Care, Value-Based Care, Denials, Clinical Quality, Process Efficiency and more
- Discover how Silver Peak enabled Tennessee Oncologists, Solis Mammography, Blue Cross (CA) and other healthcare organizations to significantly boost infrastructure and clinicians' performance.
- Listen to panel discussion about challenges, trends and best practices using Big Data and Predictive Analytics to positively impact Value-Based Care, ACO, DSRIP and Population Health initiatives
- Learn how to practically apply Lean Six Sigma and other strategies in tandem with data and analytics to reduce cost, improve clinical and non-clinical quality outcomes, and patient experience.
- Network over breakfast with notable healthcare leaders and peers to learn about common challenges and how to overcome them at the beautiful DeVry campus in Paramus and at one of the oldest and most prestigious, elegant social clubs in Manhattan.
